1.   Sign up :

This screen displays a form with input fields for users to input their details and create a new account. Upon completing the form, users should click the **Create account** button. After clicking, the website will navigate to the Home screen. For existing users, they can access the Sign in screen by clicking on **Log in.**
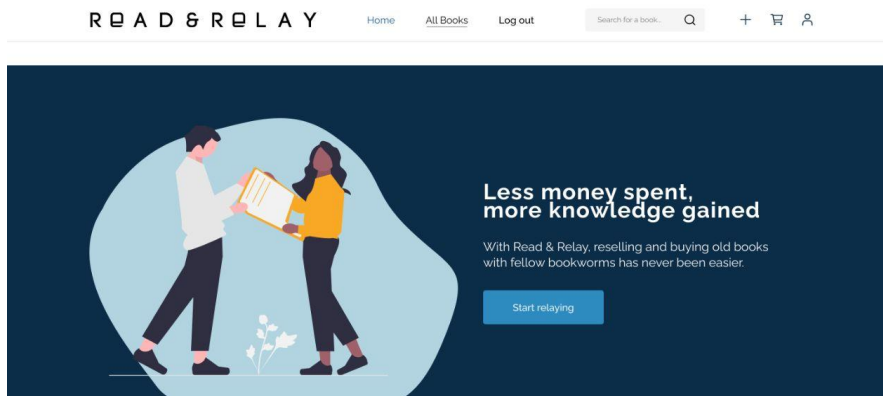

2. Sign in:

This screen contains a form with fields for users to input their login information. Upon completion, users should click the **Login** button to access the Home screen. If a user forgets their password, they can click on **Forgot password?** to set up a new one. For new users without an account, they can access the Sign up screen by clicking on **Sign up**.

3.   Home:

The home screen serves as the primary interface of the website. It displays the latest sale posts in the Recently posted category and recommends sale posts that might line up with the user's preference in the You might like section. To start browsing for all books, users can click the **Start relaying** button or the **View all** button in the Recently posted section.
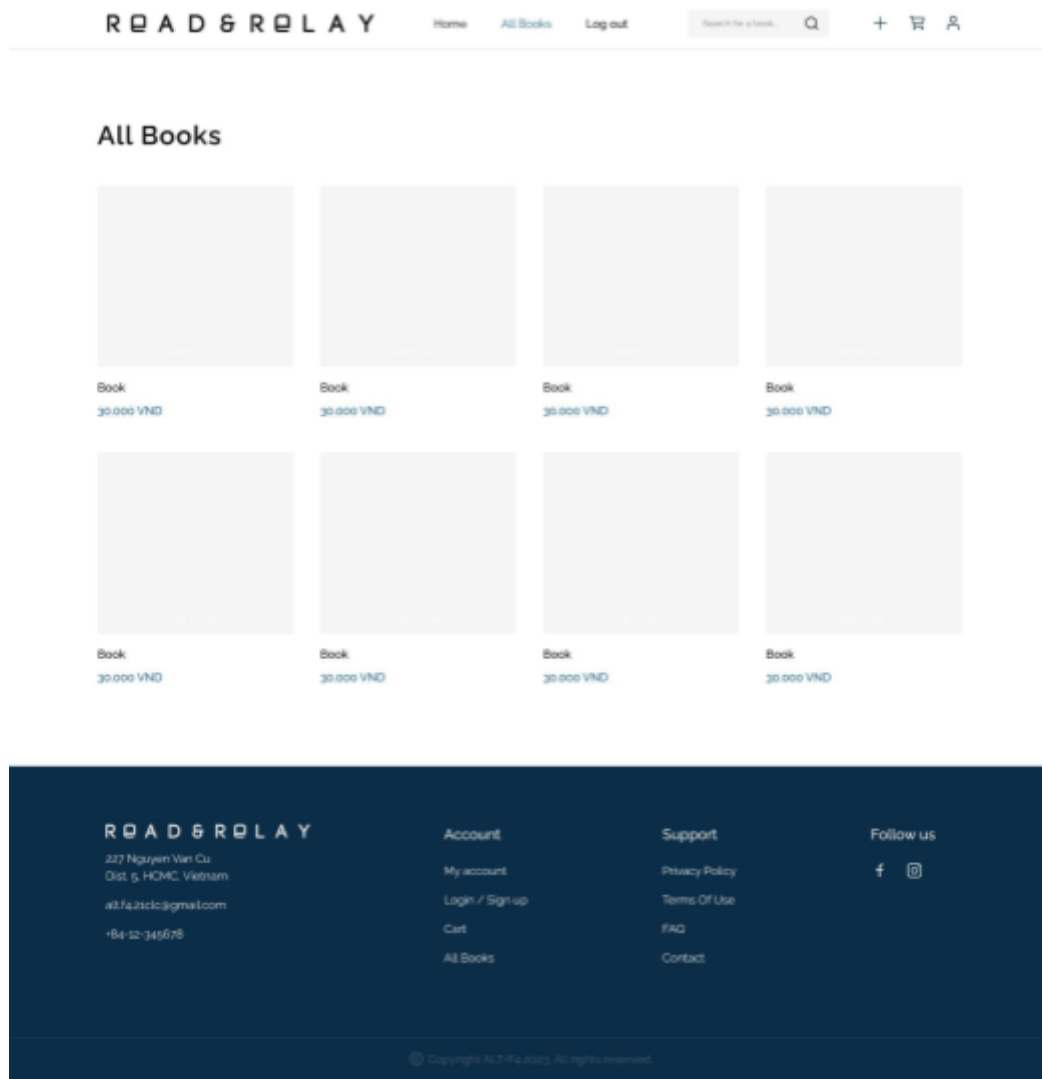

The features included in the navigation bar are:

- **All books**: directs to all books for sale.
- **Log out**: allows users to sign out of the website.
- The **search bar**: enables searching for specific content.
- **'+' button**: creates a new post
- **Cart icon**: accesses the user's shopping cart.
- **User icon**: routes to view the user's profile screen.
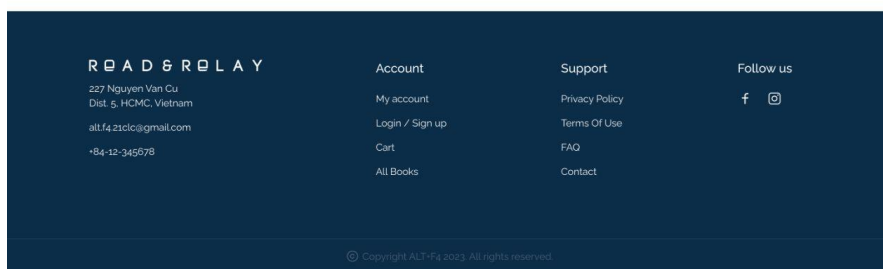

4. All books:

This screen showcases all the sale posts available on the website. Users can click on any displayed post to view its detailed information.
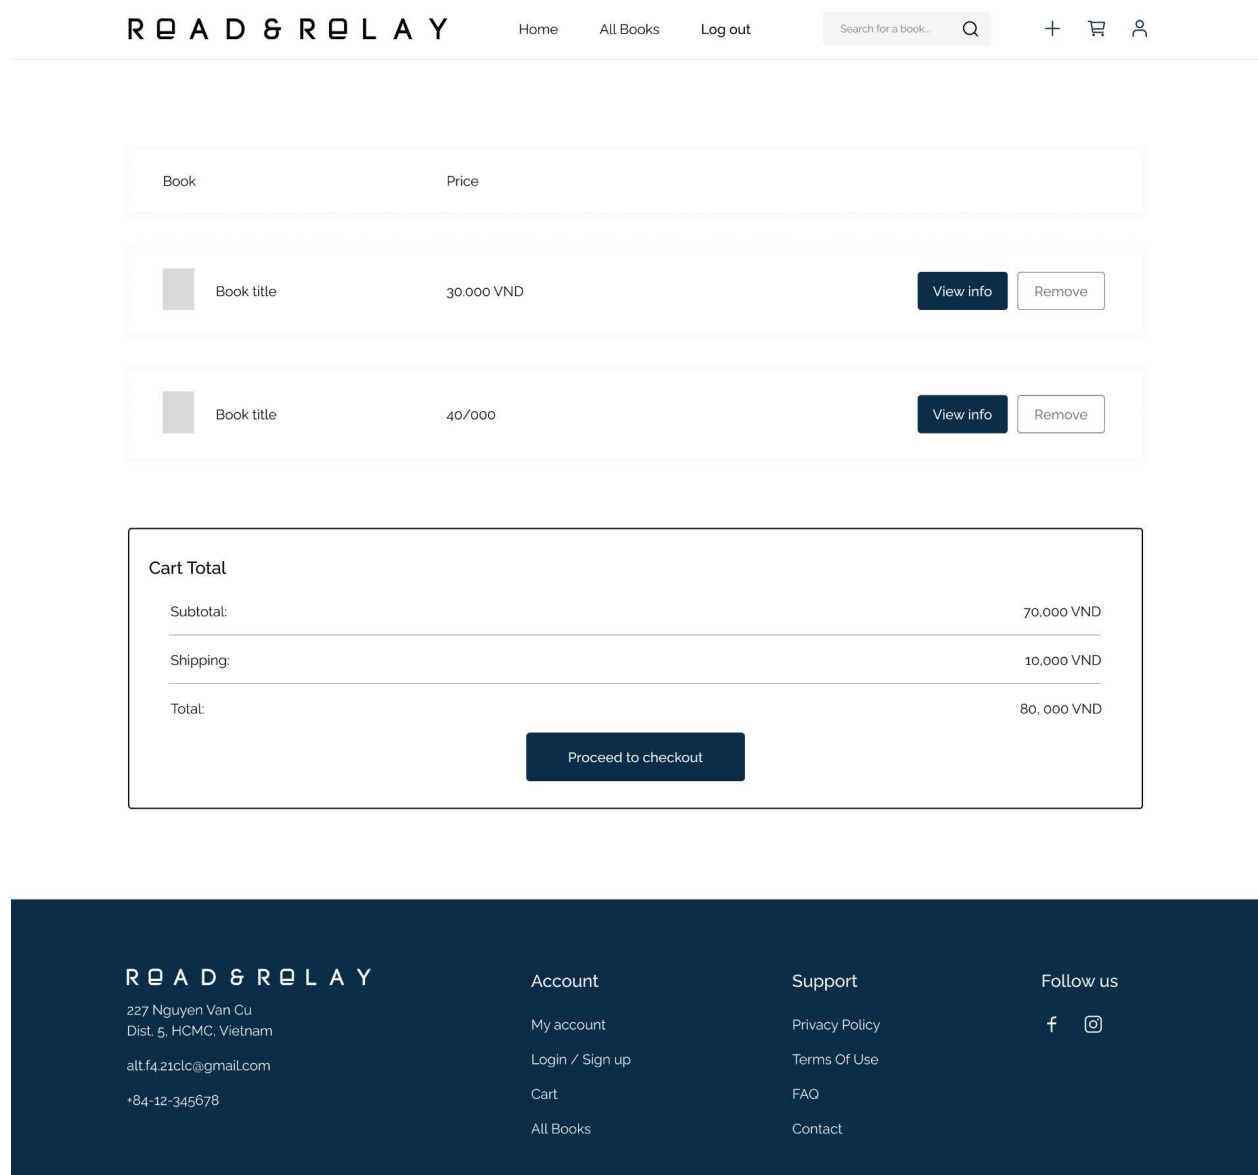

5.   Product Details page:

Within this screen, users can access comprehensive details about the book, including its title, cover image, price, description, availability, and reviews. Additionally, related books are displayed under the **You might also like** section.

To make a purchase, users can click on the **Buy now** button or add the book to their shopping cart using the **Add to Cart** button or just add to the favorite list by clicking on the **heart icon**. Moreover, within the **Reviews** section, users can view all existing book reviews and also contribute by posting their own review about the book.

6. Cart:

The cart displays all items the user has selected for purchase. Users can utilize the **View info** button to access product detail information. If users want to remove a product, they can do so by using the **Remove** button. Additionally, the total cost of all items in the cart is calculated and displayed for users. To proceed with the purchase, users can click on the **Checkout** button, which will navigate them to the checkout page.

In this screen, users encounter a billing form where they input their necessary payment information. On the right-hand side, users can review their shopping list, check the total cost, and select their preferred payment method. Once all information is entered and verified, users can finalize their purchase by clicking the **Place order** button to submit the order.

8. Edit profile:

This screen is where users can customize and manage their personal information. Here, users have the ability to modify various details such as their name, contact information, profile picture and password. Once done, users can submit these changes by clicking the **Save changes** button.
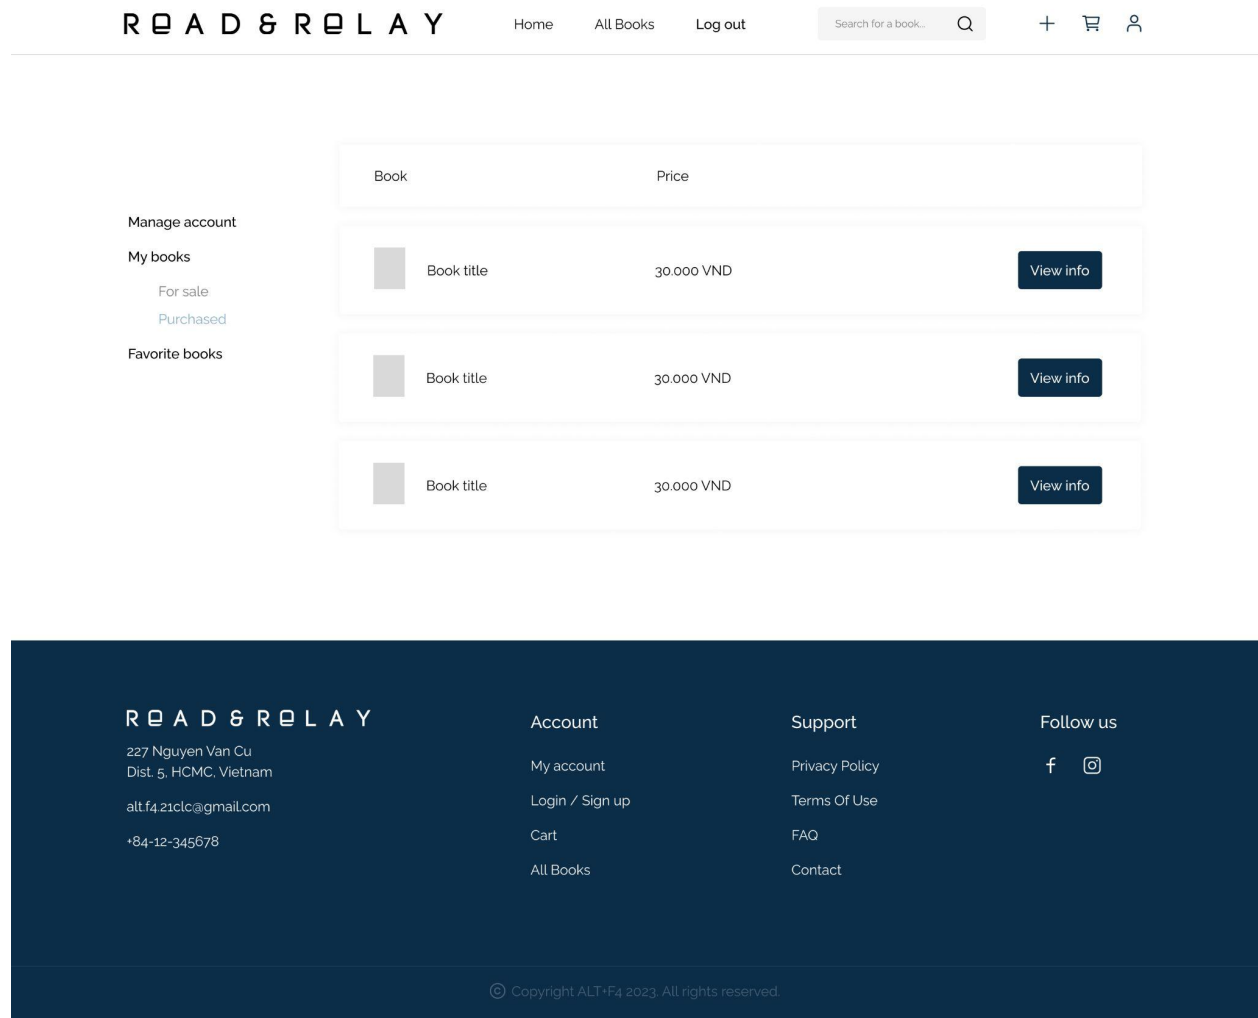

9.   Books For Sale page:
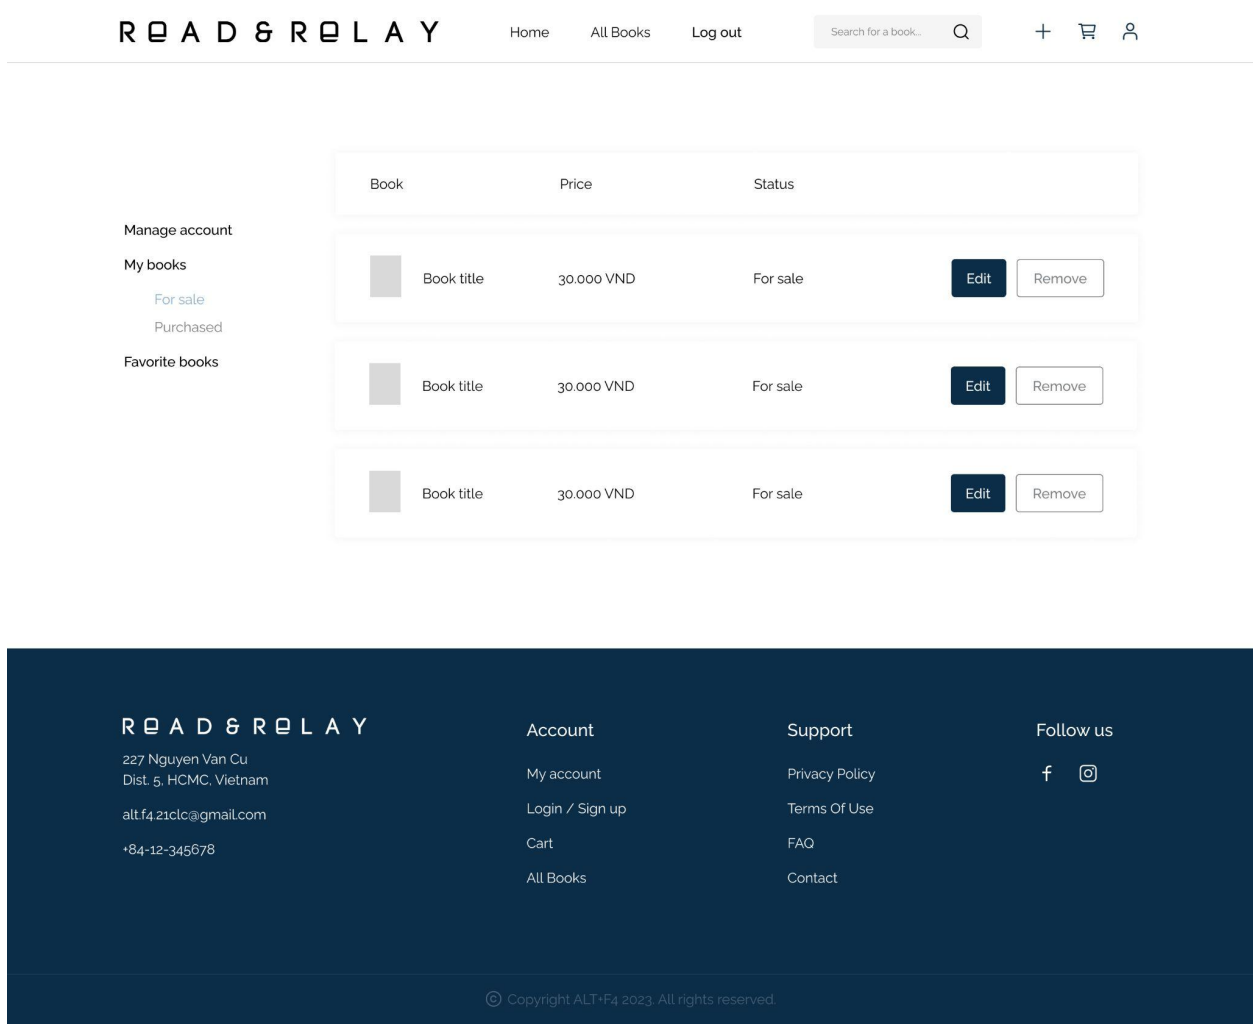

On this page, users can access their sales list. It displays a list of books that the user has listed for sale. On the right side of each product, there are two buttons: **Edit** and **Remove**. Users can freely edit the information of their products or remove them from the sales list using these buttons.

10.   Books Purchased page:

In this screen, users can view a list of their purchases. By clicking on the **View Info** button, they can access detailed information about each purchased product.

11. Add book:

This screen provides a form where users can input detailed information about a product to create a new post. It includes fields for product images, title, author, description, genre, and price. Once users have entered all the necessary information, they can complete the process by clicking the **Publish** button to publish their post.

12.   404 Error:
